

Acme Cloud Hardware Shipping Policy

Order Processing

Hardware orders (edge devices, connector kits) are processed within 1-2 business days of payment confirmation. Orders placed after 2 PM local warehouse time are processed the next business day.

Shipping Timelines

Standard shipping within the continental US takes 3-5 business days. Expedited shipping takes 1-2 business days. International shipping typically takes 7-14 business days depending on customs processing in the destination country.

Shipping Costs

Standard shipping is free for Pro and Enterprise plans and \$9.99 for Free and Basic plans. Expedited and international shipping costs are calculated at checkout based on destination and package weight.

Order Tracking

A tracking number is emailed to the customer once the order ships. Tracking status can also be viewed from the 'Orders' tab in the customer dashboard.

Damaged or Incorrect Items

If a shipment arrives damaged or contains the wrong item, customers should open a support ticket under the 'Shipping' category within 14 days of delivery, including photos of the item and packaging. Acme will ship a free replacement and, where applicable, arrange return of the incorrect item at no cost to the customer.

Delayed Shipments

If a shipment has not arrived within the estimated window, customers can contact support for a status update. Shipments delayed more than 5 business days beyond the estimated delivery date qualify for a shipping fee refund upon request.
